

# DRIVE TURF TILE

While too abrasive to fall or dive on, Drive Turf Tile's dense polyethylene turf surface layer makes it ideal for footwork drills. Use with Drive 1" rubber tiles for a transition free space.

## PRODUCT & COLOR OPTIONS

### Molded Tiles:

1" x 24" x 24" molded tiles

- Available in Green
- Reducers and ADA ramps available

Proprietary  
Installation System  
**Quad Blok**

## BASE LAYER

**FORCE REDUCTION** 60.3%

**ENERGY RESTITUTION** 36.9%

## PRODUCT FEATURES

- Durable
- Sound and shock absorbent
- Easy to install with Quad Blok
- Can be installed with Drive 1" rubber tiles

## APPLICATIONS

- Fitness Areas
- Home Gyms
- Indoor/Functional Training

## PHYSICAL DATA

### Performance Criteria Density

Vertical Deformation

G-Max

Tufted Pile Height

Pill Test / Flammability

Coefficient of Friction

### Test Method

Deltec

Clegg

ASTM D2859

ASTM D2047

### Typical Results

7.2mm

192

12mm

Pass

0.87<sub>(dry)</sub>
